

Mercy Hands NC

Pejibaye -Costa Rica

Changing the lives of underprivileged kids.

Mercy Hands NC is a non-profit organization that is dedicated to making a positive impact in the lives of 50 kids in Costa Rica. Our mission in PEJIBAYE is to provide access to educational resources, technological tools, nutritional assistance, and religious instruction to help these children reach their full potential. We believe that every child deserves a chance to succeed, regardless of their background or circumstances.

At Mercy Hands NC, we understand the importance of education in breaking the cycle of poverty. That is why we focus on providing educational resources to children in need. We believe that education is the key to unlocking a brighter future for these children and giving them the tools they need to succeed in life.

One of the main ways we support underprivileged kids is by providing them with school supplies. Many families in Costa Rica struggle to afford basic school supplies for their children, making it difficult for them to attend school regularly. By providing these supplies, we are not only helping children stay in school, but we are also giving them the opportunity to learn and grow.

In addition to school supplies, we also provide access to technological tools such as computers and printers. In today's digital age, having access to technology is crucial for a child's education. However, many families in Costa Rica cannot afford these tools, leaving their children at a disadvantage. By providing them with access to technology, we are giving them the opportunity to learn and develop important skills that will benefit them in the future.

At Mercy Hands NC, we also understand the importance of proper nutrition for a child's physical and mental development. That is why we provide nutritional assistance to underprivileged youth in Costa Rica. We believe that a healthy diet is essential for a child's growth and development, and we strive to ensure that every child in our program has access to nutritious meals.

In addition to education and nutrition, we also offer religious instruction to the children in our program. We believe that faith can be a source of strength and hope for these children, and we want to provide them with a safe and nurturing environment to explore their spirituality.

In order to continue our mission and support these children, we are in constant need of donations. **We rely on the generosity of individuals and organizations to provide school supplies, technology, and other resources to the children in our program. Every donation, big or small, makes a difference in the lives of these children and helps us continue our work.**

If you would like to support Mercy Hands NC and make a difference in the lives of underprivileged kids in Costa Rica, there are several ways you can help. You can make a monetary donation, donate school supplies or technology. Every

contribution, no matter how small, helps us make a positive impact in the lives of these children.

Mercy Hands NC is committed to empowering underprivileged kids in Costa Rica by providing them with access to educational resources, technological tools, nutritional assistance, and religious instruction. We believe that every child deserves a chance to succeed, and with your support, we can make a difference in their lives. **Join us in our mission to create a brighter future for these children and give them the tools they need to reach their full potential.**
